ANTI MYCOPLASMAS

PRODUCT	COMPOSITION	MIXING RATE	USAGE	PACKING
EFIMULIN 10%	Tiamulin Hydrogen Fumurate 10% Granules	250- 500 gm per ton of feed for layer and breeder & 500 gm per ton of feed	Prevent Mycoplasmosis	25kgs & 1kgs
EFIMULIN 45%	Tiamulin Hydrogen Fumurate 45%	25-50 mg per 1 kg body weight	Treatment of respiratory, (gastrointestinal and urogenital tract diseases,	25kgs & 1kgs
EFITYLO 10%	Tylosin Phosphate 10% Granules	250 - 500gm per ton of feed	Improves weight gain, Improved Egg Production & Prevent Mycoplasmosis	25 kg
EFITYLO 25%	Tylosin Phosphate 25% Powder	200 gm per 1000kg of feed	Increase Weight Gain, Improves Feed Conversion Rate, Prevention & control of CDR	25kg & 1 Kgs

ANTI COCCIDIALS

EFI-ZURIL 0.5%	Diclazuril 0.50 % Powder	200 gm per 1000kg of feed	Prevention of Coccidiosis	25kg & 1 Kgs
SALINOKYN 12%	Monensin Sodium 20%	450 - 500gm each ton of feed	Provides better weight gain Provides better feed conversion Preventing coccidiosis also helps protect Intestinal Integrity	25kg & 1 Kgs
EFIMONSIN 20%	Salinomycin 12% Granules	500gm each ton of feed	Prevention of Coccidiosis	25kg & 1 Kgs
MADURAKYN 1%	Maduramycin Ammpnium 1% Granular	500gm each ton of feed	Less toxic than other coccidiostats. Best compatibility with antibacterial Higher safety margin	25kg & 1 Kgs
MADURNIC	Nicarbazin 8% + Maduramicin 0.75% Premix Powder	500 – 800 g per ton of complete feed	Dual-action control: attacks early and late phases of coccidial growth High level of efficacy against Eimeria tenella, E. acervulina, E. maxima, E. necatrix, and E. brunetti	25kg & 1 Kgs
MYENRA 8%	Enramycin HCL 8 % Granules	Broilers Starter and pre-starter feed: 63 to 125 gm/Ton of Feed, Finisher: 38 to 125 gm/ Ton of Feed, Layers: 63 to 125 gm/Ton of Feed	Improves growth and FCR Reduces wet Droppings in poultry No cross resistance between MYENRA and other antibiotics Improves	25kg & 1 Kgs
CLOIPHARM 25%	Clopidol 25% Powder	The Recommended dosage is 500gm per ton of Feed	Coccidiosis Control and Preventions	25kg & 1 Kgs

ACIDIFIER

EFIDOFIX	Citric Acid, Sorbic Acid, Formic Acid, Lactic Acid, Propionic Acid, Acetic Acid, Calcium Propionate, Copper Sulphate	1000 gm per ton of feed	Feed digestibility	25kg
-----------------	--	-------------------------	--------------------	------

GROWTH PROMOTER

PRODUCT	COMPOSITION	MIXING RATE	USAGE	PACKING
EFICHLORO 15%	Chlortetracycline 15% Granules	334 gm per ton of feed	Improve Feed Efficiency	25kgs & 1kgs
EFIMD 10%	Bacitracin Methylene Disalicylate 10% Granular	250 - 500gm per ton of feed	Digestive enhancer, Improved egg production weight gain	25kgs & 1kgs
AVYAN 10%	AVILAMYCIN 10% Granules/Powder	100gm per ton of feed	Treatment of infections caused by certain gram positive bacteria	25kg & 1 Kgs
MYOXYCARE 15%	Oxytetracycline HCL 15%	250 - 500 gm per ton of feed	Enhance Egg Production	25kg & 1 Kgs
MYENRA 8% Granules	Enramycin 8% Granules	150gm per ton of feed	Excellent growth activator, Improves efficiency of feed	25kg & 1 Kgs

DISINFECTANT

EFILOX 15	Hydrogen Peroxide & Peracetic Acid Combination	30-50 ml per 1000ltr of water	Acidification, Disinfectant & Pipe Line Cleaner	5ltr
PURE-PHARM	BKC SOLUTIONS (Benzalkonium Chloride I.P) 18% V/V Citric Acid I.P 24% W/V	Water Sanitization: 1-2 ml BKC per 10 ltr of drinking water. Surface Disinfection: 10-20 ml per 10 liters of water Equipment Disinfection: Use 0.2% solution, soak or spray equipment, and allow to dry.	Broad-Spectrum Disinfectant	5 & 1ltr

BINDERS

EFI-TOXIN	HSCAS* , MOS, Oxinate Copper, Formic Acid, Propionic Acid, Acetic Acid, Sorbic Acid	Upto 12% moisture – 500 gm per ton of feed Moisture > 12% – 1 kg per ton of feed	Reduce Mycotoxins Improve Health and Maintains PH level of gut Improves liver functions	25kg
------------------	---	---	--	------

NUTRITIONAL

EFICHOLINE 60%	Choline Chloride 60% Corn Cob Base	Layers - 1000 - 1500 Breeders - 1900 - 2300 Broilers - 1900 - 2300	Preventing Fatty liver syndrome Prevents bone abnormality or Perosis in chicks Improves Carcass Quality	25kg
EFICHOLINE 75%	Choline Chloride 75% Corn Cob Base Liquid	Broilers 500 - 1000 ml/ton Layers 400 - 800 ml/ton Breeders 600 - 1000 ml/ton Swine (Growers/Finishers) 800 - 1200 ml/ton Dairy Cattle 10 - 20 ml per head per day (via TMR or drench) Calves 2 - 4 ml per calf per day	Preventing Fatty liver syndrome Prevents bone abnormality or Perosis in chicks Improves Carcass Quality	235 Ltr
TRACEMIN	Trace Minerals for Poultry Feed Supplement	Broilers: 0.5 to 1 kg per ton of feed Layers: 0.75 to 1.5 kg per ton of feed Breeders: 1 to 2 kg per ton of feed (Dosage may vary based on age, breed, and production stage.)	Improves growth and weight Improves reproductive performance in breeders Reduces oxidative stress and supports enzyme activities	1, 5 & 25 Kg
EFICAL	Calcium Granules (Feed Grade)	Broilers: 0.5-1.0% of total feed Layers: 2.5-3.5% of total feed Breeders: 2.0-3.0% of total feed	Enhances eggshell strength and thickness in laying hens Supports proper bone development in growing chicks and broilers Helps prevent calcium deficiency disorders such as rickets and cage layer fatigue	1, 5 & 25 Kg
EFIBIOTIC	Probiotic feed Supplements with Ammonia Reducer	Saccharomyces Cerevisiae, Saccharomyces Boulardii, Streptococcus Lactic, Bacillus Subtilis, Lactobacillus Acidophilus, Lactobacillus Bulgaricus, Lactobacillus Casei, Lactobacillus Sporogens.	Maintains Normal Intestine Microbiota.	1, 5 & 25 Kg

LIQUID

PRODUCT	COMPOSITION	MIXING RATE	USAGE	PACKING
EFILIVO (Liver Tonic)	Double Strength Liver tonic with growth promoter	5ml per 100 birds daily	Restore Liver Functions, Antistress Formula, Stimulate Growth	5 & 1ltr
CALPHAR (Calcium Tonic)	Vitamin, Manganese, Zinc, Cobalt, Iron, Phosphorus, Sodium Calcium Salt	10ml per 100 birds daily	Improves calcium levels, Reduce stress, Better Growth	5 & 1ltr
EFIGROW	Liquid Growth Promoter	2ml/ltr in drinking water 5-7 days	Growth Promoter	5 & 1ltr
EFIPLEX (Vitamin B Complex)	Vitamin B1, B2, B3, B5, B6, B12, Calcium Gluconate & Amino Acid	10 - 15ml per 100 birds in drinking water 5-7 days	Support Health & Immunity	5 & 1ltr
EFIRON (Iron Supplements)	Iron, Folic Acid, Vitamin B12 fortified with Copper, Cobalt and Non Essential Amino Acid	20ml per 100 Birds Daily	Reduce Iron Deficiency	5 & 1ltr
EGG SAFE	Calcium diacid phosphate, Phosphorus pentoxide, Magnesium diacid phosphate, Sodium diacid phosphate, Manganese diacid phosphate, Zinc diacid phosphate, Copper diacid phosphate, Cobalt diacid phosphate	2-5ml/lit of drinking water 15-30 ml per 100 birds Or as per recommendation of the Nutritionist	Improving bone health & skeletal strength Better eggshell formation & hatchability For overcoming mineral deficiency & weakness	1, 5 & 10 ltr
EFITOXI- LIV FORTE	Choline Chloride Cellular Antioxidant Complex Vitamin B6 Vitamin B12 Biotin Inositol	Broilers / Layers / Breeders: 5-10 ml per liter of drinking water for 5-7 days. In case of stress or liver dysfunction: 10-15 ml per liter of water for 5-10 days.	Supports Liver Function Enhances Detoxification Boosts Energy Metabolism Improves Egg Quality Production Supports Nervous System & Vital Organs:	1, 5 & 10 ltr

INNOVATIVE RANGES

FLURAMAT 20%	Furazolidone & Metronidazole 20% W/S	500 Gms/ton of feed	Treatment of Avian Canker & Diardia	1kgs & 5kgs
MYOXYCARE PRO 20%	Oxytetracycline HCL 20% & Vitamin K3 W/S 100mg	100gm in 800 ltr water	Treatment of Coliform Septicaemia and other disease	1kgs
EFIAMPRO K 20%	Amprolium 20% + Vitamin K3 2.5%	150-200 g per 100 litres of drinking water during 5-7 days,	Treatment of Coccidiosis, Eimeria infections	1kgs
NIBROLEV	Levofloxacin, Azithromycin, Bromhexine HCl & Vitamin E	Poultry: 1-2 gm per liter of water once a day for 3-5 days OR 1-2 Kg per ton of feed for 3-5 days	Combination of broad-spectrum antimicrobials, mucolytic agent, and antioxidant vitamin	1kgs & 5kgs
OVIPHARM	Essential Multivitamins Balanced Minerals Yeast Complex Highly bioavailable Calcium Natural Ovary Herbs Chromium	17-38 week: 350 grams / ton of feed From 39 weeks onwards: 500 grams / ton of feed OR As directed by Veterinarian.	Enhances and sustains egg production, Stimulates ovarian activity, supporting better ovulation and reproductive efficiency, Improves egg quality, including albumen consistency and yolk pigmentation. Strengthens eggshell quality and reduces breakages.	1kgs & 5kgs

CATTLE RANGE

EVIMIRL	Vitamins + Minerals + FAT. Vanilla Flavour	10 - 15 gm/Animal/day	Prevention of Nutritional Deficiency	1kgs
CALPHAR	Chelated Liquid calcium with Vitamins and Herbs	100 ml once daily	Increase Milk Output	1, 5 & 10 ltr
EFICAL-GEL	Fast-Acting Oral Calcium Supplement For Cattle	Dairy Cows: 1 tube (300 ml) orally immediately after calving.	Ideal for pre- and post-parturition cows	300 & 500 gms
EFIDUDH	Combination of Herbs, Calcium, Phosphorous & Vitamin D, Vacha, Jivanti, Shatavari, Ashwagandha, Brahmi, Vacha, Jivanti, Shatavari, Ashwagandha, Brahmi	Cattle/ Buffalo/Horse: 30 gm/animal Sheep/goat: 10 gm/animal Through Feed: 5 to 7 kg per ton of feed or as directed by veterinarian.	Increase Milk Production and Quality of milk	1kg, 5kg & 25kg

Quality Control and Production facility

EfipharmIND

202, Sai Krishna Tower, Near Kanakia Police Station, Kanakia Road,
Mira Road - 401107, Thane, Maharashtra, India.
